Description

Description: Although the Careers application form specifies a 5 MB maximum file size limit, uploading a valid 4.3 MB PDF resume triggers an immediate backend rejection with HTTP 413 (Content Too Large). Furthermore, the front-end UI fails to handle this response, locking the submit button in an infinite "Submitting..." state with no error message.

Impact: Blocks applicants with valid resumes under the stated 5 MB limit (between ~4.3 MB and 5.0 MB) from applying, gives zero visual feedback, and forces a browser refresh that erases all typed form data.

Environment:

- **Production:** https://resilio-partners.com/careers/cmsdti4zw000011h7erglpm2f/apply.
- **OS:** Windows 10 Pro.

- **Browser:** Google Chrome v156.0.8078.81.
- **Device:** Desktop/Laptop (HP ProBook 640 G2).

Reproducibility: 3/3 attempts (100% reproducible).

- **Test File:** Dummy_Boundary_Resume_4.3MB.pdf (4.3 MB, PDF).

Pre-conditions:

1. User is on the /careers job application page.
2. User has a valid PDF resume strictly below 5 MB (Dummy_Boundary_Resume_4.3MB.pdf — 4.3 MB).

Steps to Reproduce:

1. Navigate to https://resilio-partners.com/careers/cmsdti4zw000011h7erglpm2f/apply .

1. Fill out all required application fields with valid data.

1. Click "Choose File" and select Dummy_Boundary_Resume_4.3MB.pdf (4.3 MB).

1. Click "Submit Application" and inspect the UI button and Chrome DevTools Network tab.

Expected Result: The server should accept the file and display 'Application Received' (or if constrained by Vercel's 4.5 MB limit, catch the error, stop the spinner, and state the true max file size).

Actual Result: The button hangs infinitely on "Submitting..." with no UI error. DevTools Network confirms POST /api/careers/upload-resume failed with HTTP 413 Content Too Large.

Severity — Sev-2 (High) Justification: Rejects valid user files that comply with the stated 5 MB rule and completely locks the application journey without feedback.
