### Description

**Description:** On the Portfolio page (/portfolio), project showcase cards use a 2-column layout (title on the left, description on the right). At intermediate screen widths (~768px–1024px), long words in project headings such as "MMORPG" in "Hoop Dynasty MMORPG" overflow the left column and collide directly into the right-hand paragraph text.

**Impact:** Makes both the project title and the adjacent case-study description unreadable, hurting brand credibility and violating WCAG 2.1 Level AA text reflow standards.

**Environment:**

- **Production**: https://resilio-partners.com/portfolio.
- **OS:** Windows 10 Pro

- **Browser:** Google Chrome v156.0.8078.81
- **Device:** Desktop/Laptop (HP ProBook 640 G2)

**Reproducibility:** 3/3 attempts (100% reproducible)

- **Viewport Width:** ~768px–1024px

**Pre-conditions:**

1. User is on the Portfolio page: https://resilio-partners.com/portfolio
2. Browser viewport is set to an intermediate tablet/laptop width (~768px–1024px).

**Steps to Reproduce:**

1. Navigate to https://resilio-partners.com/portfolio .

1. Scroll to the "Hotel Dwipa Management System" portfolio card.

1. Inspect the alignment between the bold left-hand heading and the right-hand description paragraph.

**Expected Result:** Long heading words should wrap cleanly within the left column (or the card should stack into 1 column) with clear gutter spacing before the body text.

**Actual Result:** The word "Management" spills out of the left column and renders directly on top of the word "operational" in the right-hand description text.

**Severity — Sev-3 (Medium) Justification:** Direct text-on-text collision on a client-facing portfolio showcase page makes key content unreadable.
